

## Funding Bids (Pothole Bid)

Waltham Forest required assistance with the submission of their Pothole Fund bid. Metis was appointed to support them with their response to the Department for Transport (DfT).

### OUR APPROACH.

- Gather all the necessary information required and complete the bid forms by reviewing supporting documentation, the council's website and client liaison.
- Prepare and compile all the required supporting evidence to complement the bid.
- Produce a draft bid to be discussed with the client and amend as necessary.
- Issue the final bid well in-advance of the DfT submission deadline.

### PROJECT OUTCOMES.

Through this project, our clients were able to:

- Submit bids that hit the DfT triggers, maximising allocated funding.
- Receive up to 65% more funding, than originally allocated within London.
